

Department of Physical Geography

Elective courses for the NPLKO Master's Programme in Polar Landscapes and Quaternary Climate, study year 2019-2020

Decided by the Director of Studies 2019-01-23, after consultance with the department's educational advisory group.

Within the program (from autumn term 2019), 22.5 credits courses must be chosen from a list of elective courses in Physical Geography and Quaternary Geology. The following courses constitute this list for the study year 2019-2020:

- GE7051 Permafrost - Interactions with Ecology and Hydrology, 7.5 credits
- GE7052 Glaciology, 7.5 credits
- GE7053 Paleoglaciology, 7.5 credits
- GE7058 Quaternary Sedimentology, 7.5 credits
- GE7076 Quaternary Climate and Environmental Reconstructions, 15 credits
- GE7077 Climate Model Simulations, 7.5 credits
- GE8021 Quaternary Geology, Specialized Course, 7.5 credits
- GE8022 Physical Geography, Specialized Course, 7.5 credits

Note: By being admitted to the program you do not automatically gain admission to each of these courses. You have to fulfil the course requirements for each of the courses. See further information about the courses and their specific requirements on <https://sisu.it.su.se/search/archive/en>. More information about the courses you can find on our website www.natgeo.su.se/english/education.
